

UM3161G Series Simple Melody Generator

Features

- 63-note ROM memory
- 1.3 V to 3.3 V power supply
- Low power consumption
- On chip RC oscillator
- 4 playing modes selectable by bonding option
- Direct piezo drive
- Dynamic speaker can be driven by connecting an external transistor
- Auto power-off capability
- CdS trigger function
- Minimum 5 bonding pads
- 8 beats can be selected from 15 beats
- One tempo can be selected from 15 programmable tempos
- 16 tones (including rest) from C4-C6 (2 Octaves) can be used
