

# M62782GP

## Voltage Detecting, System Resetting IC Series

REJ03D0524-0100 Rev.1.00 May 27, 2005

#### **Description**

The M62782GP is a voltage threshold detector designed for detection of a supply voltage and generation of a system reset pulse for almost all logic circuits such as microprocessor.

It also has extensive applications including battery checking, level detecting, and waveform shaping circuits.

#### **Features**

- Few external parts
- Low threshold operating voltage (Supply voltage to keep low-state at low supply voltage) 0.65V (Typ.) at  $R_L=22k\Omega$
- Wide supply voltage range 1.5V to 7.0V
- Wide application range
- Extra small 5-pin package (5-pin SOP) SOT-25
- Built-in long delay time 100ms

#### **Application**

- Reset pulse generation for almost all logic circuits
- Battery checking, level detecting, waveform shaping circuits
- Delayed waveform generator
- Switching circuit to a back-up power supply
- DC/DC converter
- Over voltage protection circuit

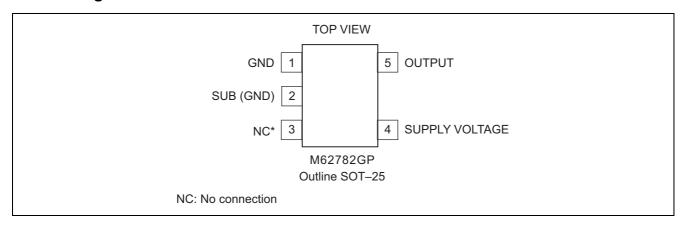

#### **Recommended Operating Condition**

• Supply voltage range 1.5V to 7.0V

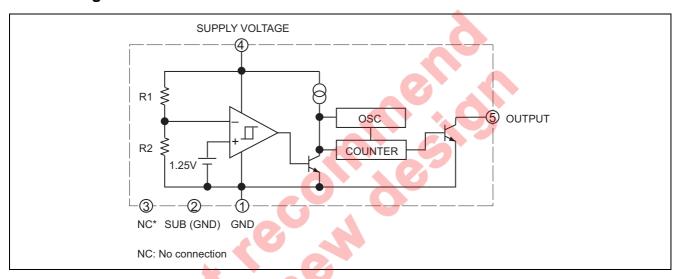

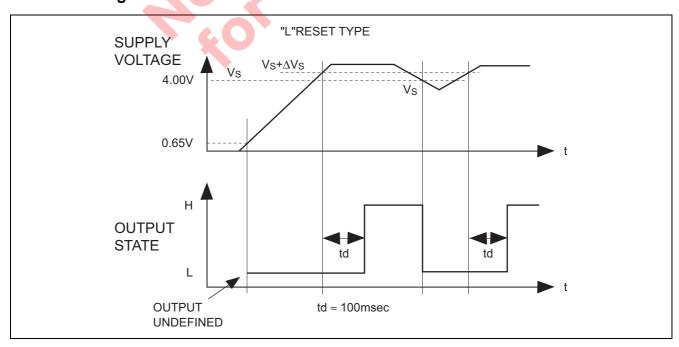

#### **Pin Arrangement**

### **Block Diagram**

#### **Function Diagram**

#### **Absolute Maximum Ratings**

(Ta = 25°C, unless otherwise noted)

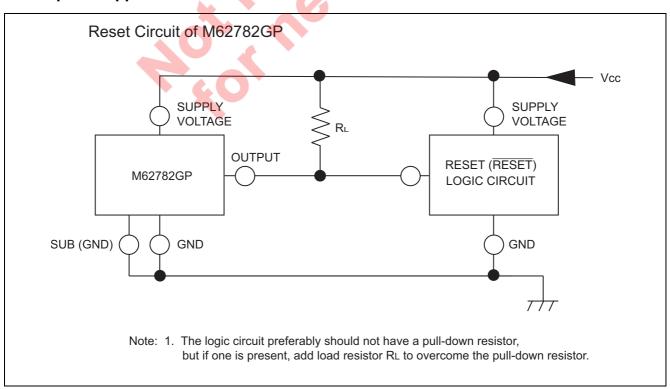

Item	Symbol	Ratings	Unit	Test Conditions	
Supply voltage	V <sub>CC</sub>	7	V		
Output sink current	I <sub>sink</sub>	6	mA		
Output voltage	Vo	7	V	Output with open collector	
Power dissipation	Pd	200	mW	5pin SOP (SOT-25)	
Thermal derating	$K_{\scriptscriptstyle{\theta}}$	2	mW/°C	Ta ≥ 25°C	
Operating temperature	T <sub>opr</sub>	-30 to +85	°C		
Storage temperature	T <sub>stg</sub>	-40 to +125	°C		

#### **Electrical Characteristics**

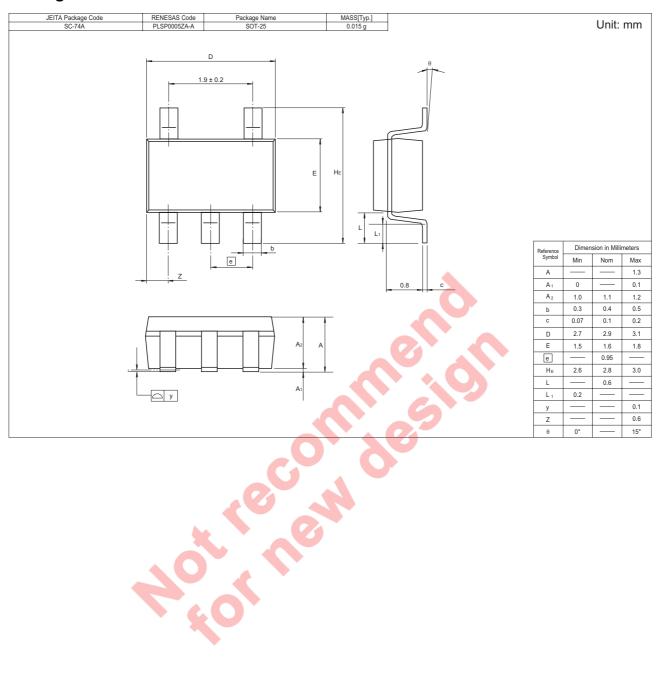

(Ta = 25°C, unless otherwise noted)

Item	Symbol	Min	Тур	Max	Unit	Test condition	
Detecting voltage	Vs	3.84	4.00	4.16	V		
Hysteresis voltage	$\Delta V_S$	50	80	110	mV		
Detecting voltage temperature coefficient	V <sub>S</sub> / $\Delta$ T		0.01	_	%/°C	<b>S</b>	
Circuit current	I <sub>CC</sub>	_	400	600	μΑ	$V_{CC} = 5.0V$	
Output saturation voltage	Vsat	_	0.2	0.4	V	V <sub>CC</sub> =3.5V, I <sub>sink</sub> =4mA,	
Threshold	$V_{OPL}$	_	0.7	8.0	V	Minimum	R <sub>L</sub> =2.2kΩ, Vsat≤0.4V
operating voltage		_	0.6	0.7	5	supply voltage for operation	R <sub>L</sub> =100kΩ, Vsat≤0.4V
Output leak current	I <sub>OH</sub>	_		30	nA		
				1	μΑ	Ta = −30 to +85°C	
delay time	tpd	60	100	140	ms		

### **Example of Application Circuit**

Renesas Technology Corp. Sales Strategic Planning Div. Nippon Bldg., 2-6-2, Ohte-machi, Chiyoda-ku, Tokyo 100-0004, Japan

Keep safety first in your circuit designs!

1. Renesas Technology Corp. puts the maximum effort into making semiconductor products better and more reliable, but there is always the possibility that trouble may occur with them. Trouble with semiconductors may lead to personal injury, fire or property damage.

Remember to give due consideration to safety when making your circuit designs, with appropriate measures such as (i) placement of substitutive, auxiliary circuits, (ii) use of nonflammable material or (iii) prevention against any malfunction or mishap.

- (ii) use of nontrammaple material of (iii) prevention against any maintention or misnap.

  Notes regarding these materials are intended as a reference to assist our customers in the selection of the Renesas Technology Corp. product best suited to the customer's application; they do not convey any license under any intellectual property rights, or any other rights, belonging to Renesas Technology Corp. or a third party.

  Renesas Technology Corp. assumes no responsibility for any damage, or infringement of any third-party's rights, originating in the use of any product data, diagrams, charts, programs, algorithms, or circuit application examples contained in these materials.

  All information contained in these materials, including product data, diagrams, charts, programs and algorithms represents information on products at the time of publication of these materials, and are subject to change by Renesas Technology Corp. without notice due to product improvements or other reasons. It is therefore recommended that customers contact Renesas Technology Corp. or an authorized Renesas Technology Corp. product distributor for the latest product information before purchasing a product listed herein.

  The information described here may contain technical inaccuracies or typographical errors.

  Renesas Technology Corp. assumes no responsibility for any damage, liability, or other loss rising from these inaccuracies or errors.

  Please also pay attention to information published by Renesas Technology Corp. by various means, including the Renesas Technology Corp. Semiconductor home page (http://www.renesas.com).

  4. When using any or all of the information contained in these materials, including product data, diagrams, charts, programs, and algorithms, please be sure to evaluate all information as a total system before making a final decision on the applicability of the information and products. Renesas Technology Corp. assumes no responsibility for any damage, liability or other loss resulting from the information contained here
- use.

  6. The prior written approval of Renesas Technology Corp. is necessary to reprint or reproduce in whole or in part these materials.

  7. If these products or technologies are subject to the Japanese export control restrictions, they must be exported under a license from the Japanese government and cannot be imported into a country other than the approved destination.

  Any diversion or reexport contrary to the export control laws and regulations of Japan and/or the country of destination is prohibited.

  8. Please contact Renesas Technology Corp. for further details on these materials or the products contained therein.
