

Type THF Solid Tantalum Capacitors

Hermetically Sealed Axial Lead Solid Tantalum Capacitors

The Type THF is ideal for use in switching regulators and high frequency power supplies because of its high ripple current and low ESR capabilities. It is an axial lead solid tantalum capacitor constructed with a rugged hermetically sealed metal case, insulated with an outer polyester wrap. The THF assures a small case size for high capacitance, and is extremely stable over the rated temperature range.

Highlights

- ◆ High Ripple Current
- ◆ Low ESR
- ◆ Lower Impedance at High Frequency
- ◆ Extremely Stable Capacitance
- ◆ Long Life
- ◆ Moisture & Solvent Resistant
- ◆ Small Size
