

# Vatronics Technologies Limited

## NSP POWER TYPE NTC THERMISTORS

### \* Introduction:

••Vatronics is Suitable for the use in switching power supply, UPS power supply, electric heaters, electronic energy-saving lighting, electronic ballast and electronic devices for power supply circuit protection; and for the use in color video tube, incandescent bulb and other lighting devices for filament protection; it features small size, high power, strong resistance to surge current, quick response, high B value, low residue resistance, long service life, high reliability, high security and wide applications.

### \* Applications:

••Suitable for the use in switching power supply, UPS power supply, electric heaters, electronic energy-saving lighting, electronic ballast and electronic devices for power supply circuit protection; and for the use in color video tube, incandescent bulb and other lighting devices for filament protection.

### \* Features:

- ① Small size, high power and strong resistance to surge current;
- ② Quick response;
- ③ High in B value and low in residual resistance;
- ④ Long service life and high reliability;
- ⑤ High security and wide applications.

### Vatronics Part Number System

NTC	5D	13
(1)	(2)	(3)

(1)Product Type: NTC

(3)Diameter =13mm

(2)Resistor Value at 25C =5C

Code (Chip Diameter)	A Chip Diameter MAX	B Lead Wire Length MIN	C Pitch	D Chip Thickness MAX	E <sup>①</sup> Lead Wire Diameter	F Distance from Lead Wire to Chip MAX	G <sup>②</sup> Molding Distance	H <sup>②</sup> Post- Molding Pitch MIN
20	22	25	7.5±1/10±1	7	1.0	4	28±3.5	4.5
15	16.5	25	7.5±1/10±1	6	1.0	4	24±3.5	4.5
13	14.5	25	7.5±1	6	0.8	4	22±3.0	4.5
11	12.5	25	5±1	5	0.8	4	20±2.0	3.0
9	10.5	25	5±1	5	0.6	4	18±2.0	3.0

**Note:**

① "E" value may be 0.6 for resistors for which the chip's diameter is  $\leq \phi 13$  and the working current is  $\leq 2A$ .

② "G" column and "H" column stand for bend dimensions of the lead.

**Specifications List**

Model Number	R <sub>25±20%</sub> ( $\Omega$ )	Max. Current (A)	Approx. Resistance in Max. Current at 25° ( $\Omega$ )	Dissipation Power (mW/°)	Time Constant •S•	Operating Temperature •••

**Note:** Vatronics Power type NTC thermistor comes with optional chip diameter of  $\phi$  7, 8, 9, 10, 11, 13, 15, 18, 20, 22, 25, 30, 35, etc. For required specifications not shown, please do not hesitate to contact us.

A--chip diameter, B--lead wire length, C--pitch, D--chip thickness, E--lead wire diameter,

F--distance from lead wire to chip, G--molding distance, H--post-molding pitch
