HAND TOOLS

Fact Finder on: ROLLER PIPE CUTTERS

THESE TOOLS ARE DESIGNED TO CUT STEEL PIPE AND FEATURE A FAST CUTTING STEEL WHEEL AND TWO WIDE ROLLERS THAT KEEP THE CUTTER SQUARELY ON TRACK AND ALSO SMOOTH DOWN THE BURR LEAVING A CLEAN CUT, READY FOR JOINTING OR THREADING.

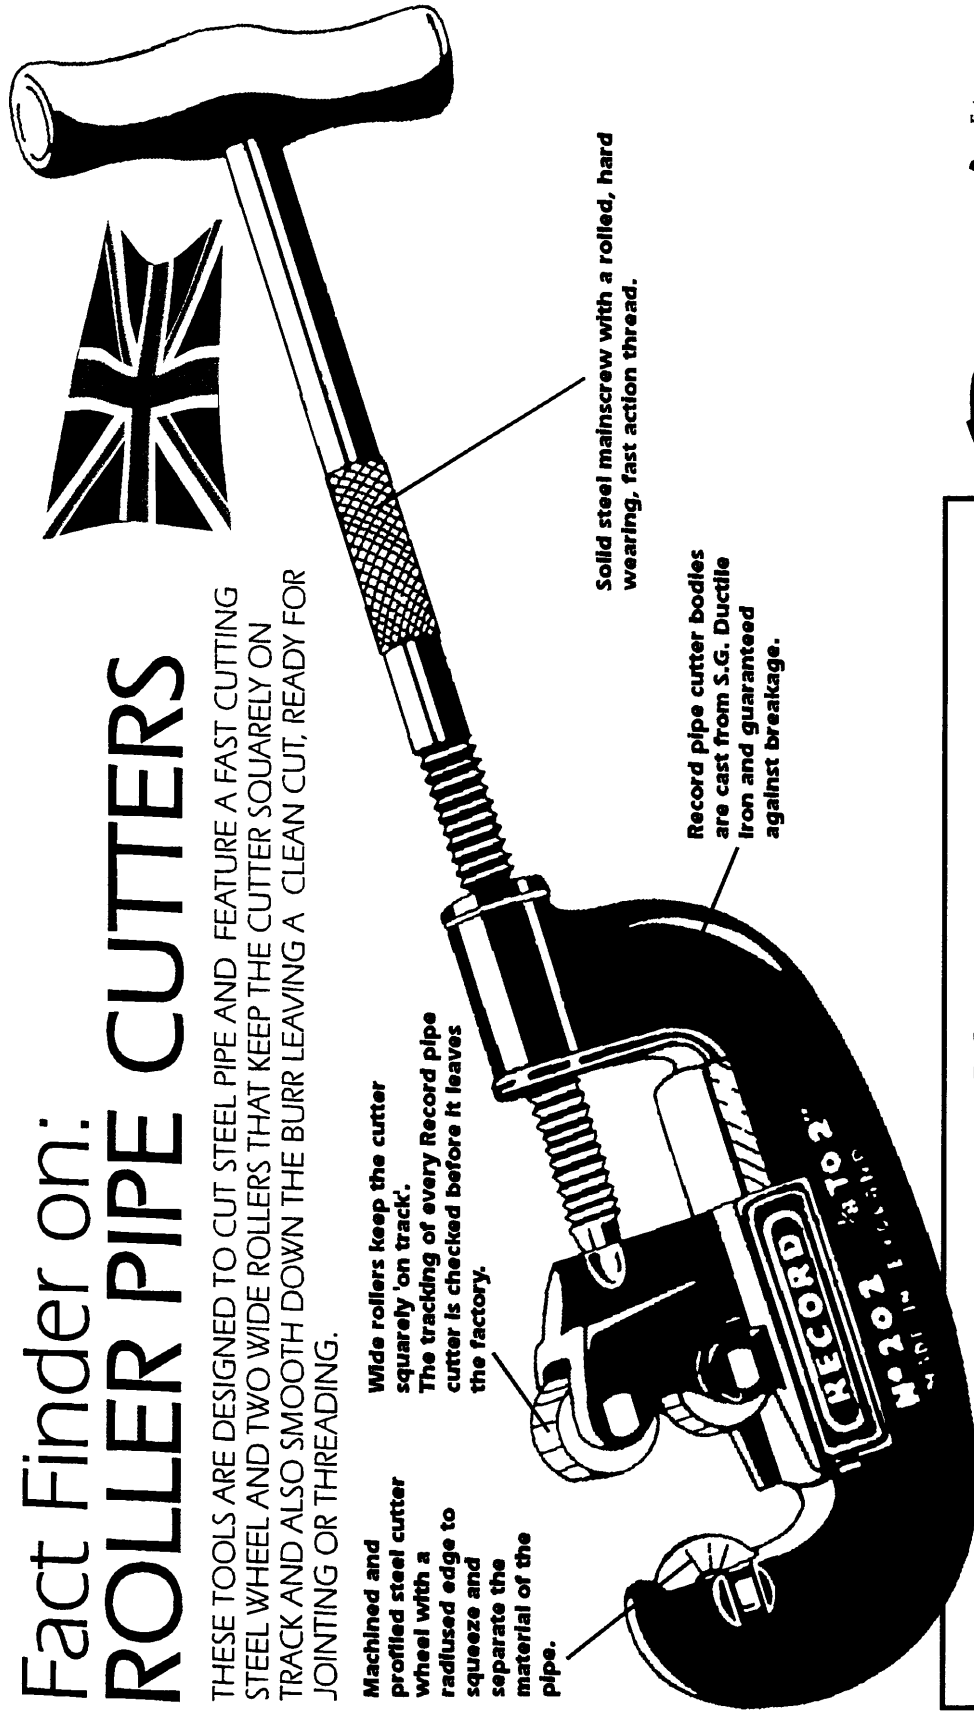

Machined and profiled steel cutter wheel with a radiused edge to squeeze and separate the material of the pipe.

Wide rollers keep the cutter squarely 'on track'.

The tracking of every Record pipe cutter is checked before it leaves the factory.

Solid steel mainscrew with a rolled, hard wearing, fast action thread.

Record pipe cutter bodies are cast from S.G. Ductile iron and guaranteed against breakage.

Record HAND TOOLS ROLLER PIPE CUTTERS

Cat. No.	Pipe Capacity	Nom. bore	o.d.
202	1/8"-2"	10-60mm	
203	1"-3"	34-90mm	
204	2"-4"	60-115mm	

ROLLER TUBE CUTTERS

Roller tube cutters work in the same way as the larger pipe cutters and are available in three sizes:

200 - 22 for copper, aluminium and brass, 3 to 22mm o.d.

200 - 30C (with spare wheel & fold away deburrer) for copper, aluminium, brass and thin wall steel, 3 to 30mm o.d.

200 - 45 with an extra thin wheel for copper or plastic 15 to 45mm.
