## General Information

Designed for pumping clean water. The portable Jet pump is ideal for many household and light industrial uses. Pressure washing, lawn watering, water transfer and pressure boosting are just a few of its applications.

Supplied ready to run, the Jet pump comes with power cable and plug fitted. For easy local control, an on/off switch is featured on the motor.

Initially prime the pump head with clean water and the Stuart Jet pump will self prime up to 7 metres.

The electric motor is built for continuous use with fan cooling and built in thermal overload protection.
