Barricade Tapes

INDUSTRIAL WARNING

NEW

Superstrong Barricade Tape

Long-lasting hazard protection, even with long distances between tie points. Reinforced Barricade Tape is stronger than ordinary barricade tape, making long stretches between tie points easy. No stretch or sag in sunlight or wind and it's tough enough to be used again.

Width: 75 mm

Length: 100 m

Standard Package: 1 Roll

Underground Warning Tape

NEW

Underground tape is buried 30 to 45 cm below ground level. Digging crews receive warning of buried lines and cables, allowing a margin of safety between the tape and the buried line.

- Easily Seen
- Easily Identified - by means of colour coding
- Convenient - Handy dispensing reel.
- Strong - Heavy duty polyethylene material resists acid, alkalis and other soil substances. Tape is 0.1 mm thick, with a though tensile strength of 1750 psi.
- Long Lasting - Coated graphics provide long lasting legibility and hold colour values.
- Economical - Compared to the potential cost of line damage, this tape is cost-effective for use over the entire length of the line.

| Utility Class | Colour | Size (W x L) | Part. No. |
|-----------------------|--------|----------------|-----------|
| Electric cable below | Yellow | 150 mm x 365 m | 256862 |
| Gas main below | Yellow | 150 mm x 365 m | 256863 |
| Telephone cable below | Green | 150 mm x 365 m | 256864 |
| Waterpipe below | Blue | 150 mm x 365 m | 256865 |
