

EMC CONVERSION KITS

This kit contains all the parts required to convert an 84HP caseframe for EMC, excluding any front or rear panels and side closing plates.

CONTENTS OF KIT

2 plain tie bars
2 tapped strips

Top and bottom covers (either ventilated or unventilated).

EMC CONVERSION KITS

(For 160mm PCB's) in a 324 caseframe

NOTE: Cover design has been improved and differs slightly from photograph. Finger Strips must be ordered separately

Ordering information

Height	Description	Order code
3U	Unventilated	950-240574K
3U	Ventilated	950-240575H
6U	Unventilated	950-240576F
6U	Ventilated	950-240577D

EMC CONVERSION KITS

(For 160 or 220mm PCB's) in a 444 deep caseframe

Ordering information

Height	Description	Order code
3U	Unventilated	950-240584G
3U	Ventilated	950-240585E
6U	Unventilated	950-240587A
6U	Ventilated	950-240588K

EMC CONVERSION KITS

(For 280 or 340mm PCB's) in a 564 caseframe

Ordering information

Height	Description	Order code
6U	Unventilated	950-240562F
6U	Ventilated	950-240563D

The EMC conversion kits are also available in their constituent parts.

SIDE CLOSING PLATES

These are fitted at the front and rear in conjunction with the tie bars. EMC Beryllium copper fingers are recommended to maintain the shield between the caseframe and EMC panels.

CONTENTS OF KIT

4 angles (3U)
8 angles (6U)

Ordering information

Height	Order code
3U	950-226126H
6U	950-226127F

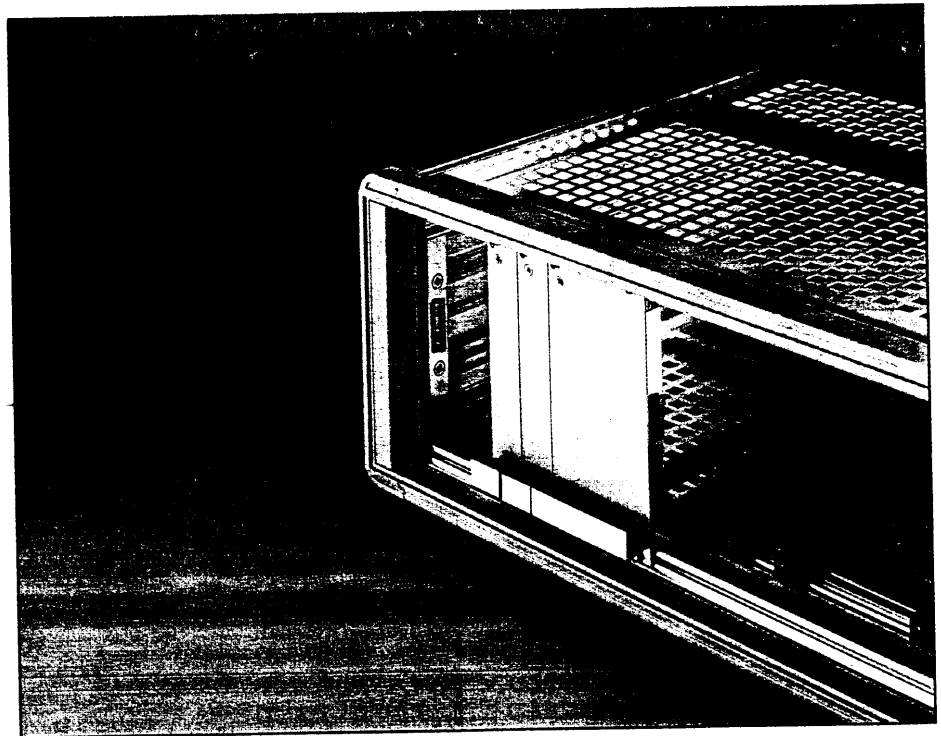

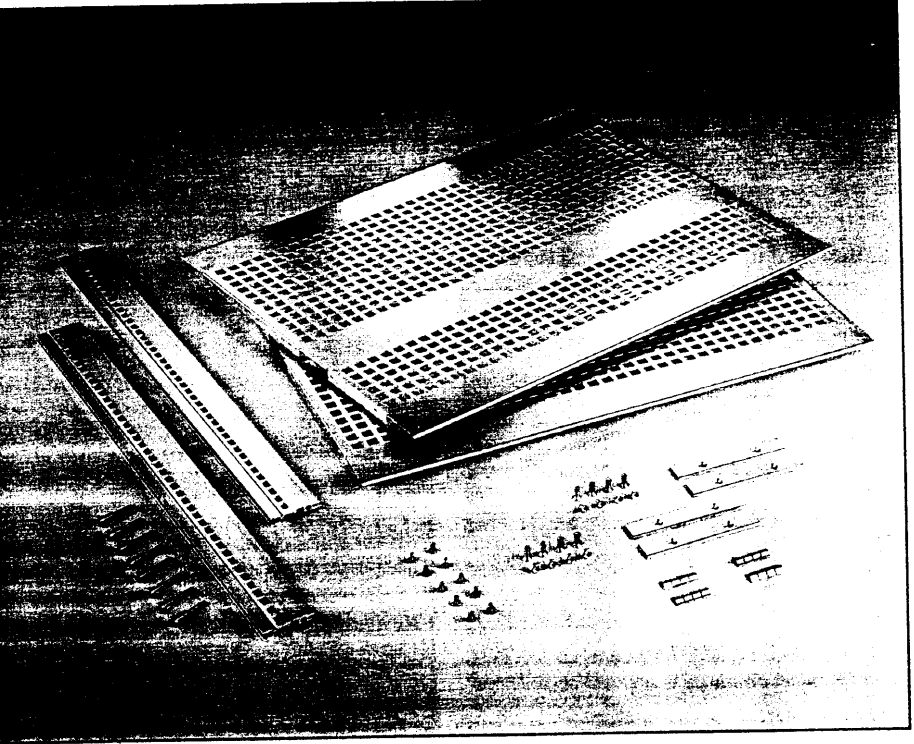

RFI FINGER STRIP

Supplied in lengths of 381mm consisting of 60 fingers. The fingers are self adhesive for easy application and replacement in the field. They can be cut using a sharp pair of scissors, taking care to avoid crushing during cutting.

RFI finger strip material: Beryllium copper

Ordering information

RFI Finger strip	930-238243F
------------------	-------------

TOP AND BASE COVERS

Material : 0.9mm aluminium alloy
Conductive finish

CONTENTS OF KIT

2 covers
All fixings

Ordering information

Card depth	Order code	
	Plain	Vented
160	950-240557K	950-240553G
220	950-240559F	950-240554E
340	950-240558H	950-240555C

REAR MOUNTING TIE BARS

Two should be ordered per caseframe. Sold in singles.

Two tapped strips and fixings are also required.

Ordering information

Description	Order code
Plain tie bar	950-221909A
Tapped strip	950-202001E
Pack 100 fixings	950-202734F
