

# TS78M00A series

## 3-Terminal Medium Current Positive Voltage Regulator

TO-220

TO-252

Pin assignment:

1. Input
2. Ground
3. Output

(Heatsink surface connected to Pin 2)

**Voltage Range 5V to 24V  
Output Current up to 0.5A**

### General Description

The TS78M00A Series positive voltage regulators are identical to the popular TS7800 Series devices, except that they are specified for only half the output current. Like the TS7800 devices, the TS78M00A Series 3-Terminal regulators are intended for local, on-card voltage regulation.

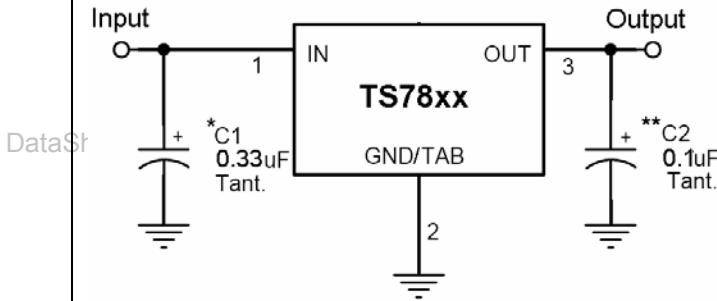

Internal current limiting, thermal shutdown circuitry and safe-area compensation for the internal pass transistor combine to make these devices remarkably rugged under most operating conditions. Maximum output current with adequate heatsink is 500mA

This series is offered in 3-pin TO-220, TO-252 package.

### Features

- ◊ Output current up to 0.5A
- ◊ No external components required
- ◊ Internal thermal overload protection
- ◊ Internal short-circuit current limiting
- ◊ Output transistor safe-area compensation
- ◊ Output voltage offered in 2% tolerance

### Standard Application

### Ordering Information

Part No.	Operating Temp. (Ambient)	Package
TS78MxxACZ	-20 ~ +85°C	TO-220
TS78MxxACP		TO-252

Note: Where xx denotes voltage option.

A common ground is required between the input and the output voltages. The input voltage must remain typically 2.0V above the output voltage even during the low point on the Input ripple voltage.

XX = these two digits of the type number indicate voltage.

\* = Cin is required if regulator is located an appreciable distance from power supply filter.

\*\* = Co is not needed for stability; however, it does improve transient response.

### Absolute Maximum Rating

Input Voltage	Vin *	35	V
Input Voltage	Vin **	40	V
Power Dissipation	Without heatsink	2	W
	Pt ***	15	
	Without heatsink	1	
Operating Junction Temperature Range	T <sub>J</sub>	0 ~ +150	°C
Storage Temperature Range	T <sub>STG</sub>	-65 ~ +150	°C

Note : \* TS78M05A to TS78M18A

\*\* TS78M24A

\*\*\* Follow the derating curve

## TS78M05A Electrical Characteristics

(Vin=10V, Iout=350mA, 0 °C≤Tj≤125 °C, Cin=0.33uF, Cout=0.1uF; unless otherwise specified.)

Parameter	Symbol	Test Conditions		Min	Typ	Max	Unit
