

STEVAL-ILL038V1

LED resonant driver demonstration board based on the L6585DE

Data brief

Features

- Extended input mains range: 90 ~ 265 VAC - frequency 50/60 Hz
- Output voltage: 48 V at 2.08 A
- Long-life, electrolytic capacitors are not used
- Mains harmonics according to EN61000-3-2 Class-D
- Efficiency at full load is better than 90%
- RoHS compliant

Description

The STEVAL-ILL038V1 demonstration board implements a 100 W LED switched-mode power supply (SMPS) based on the L6585DE. This device embeds a high-performance transition mode (TM) Power Factor Correction (PFC) controller, Half-Bridge (HB) controller and all the relevant drivers necessary to build a combo IC.

The L6585DE embeds a wide range of features to provide an energy-saving and cost-effective solution for LED SMPS.

The PFC section of this IC has superior performance in terms of harmonic content mitigation. High Power Factor (PF) and Total Harmonic Distortion (THD) reduction are obtained as required by international norms, especially concerning universal input voltage operations. The TM PFC operation and high-efficiency performance of the half-bridge topology provide very good overall circuit efficiency.

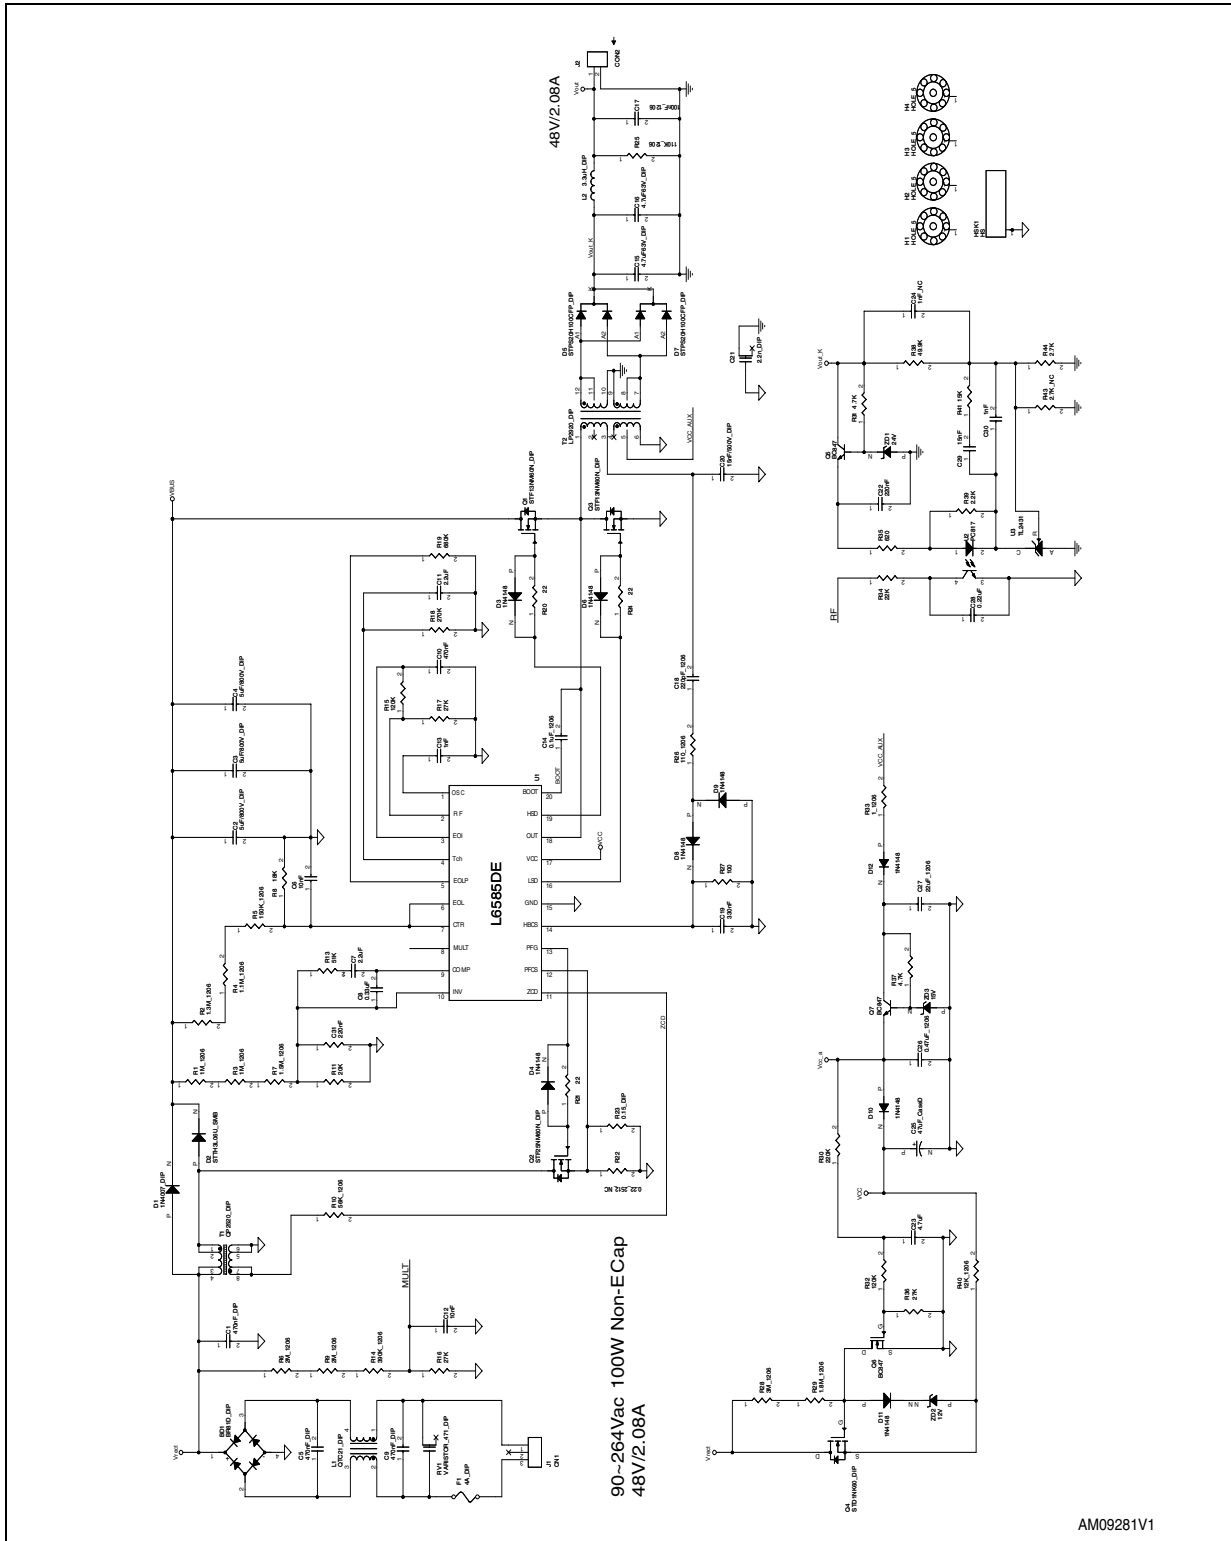

In order to guarantee maintenance-free operation required by this kind of application during the LED's lifetime, the STEVAL-ILL038V1 board doesn't use any electrolytic capacitors which have been replaced by safer film capacitors.

Other features, such as half-bridge overcurrent with frequency increase and PFC overvoltage, allow designers to build a reliable and flexible solution with a reduced component count.

Please Read Carefully:

Information in this document is provided solely in connection with ST products. STMicroelectronics NV and its subsidiaries ("ST") reserve the right to make changes, corrections, modifications or improvements, to this document, and the products and services described herein at any time, without notice.

All ST products are sold pursuant to ST's terms and conditions of sale.

Purchasers are solely responsible for the choice, selection and use of the ST products and services described herein, and ST assumes no liability whatsoever relating to the choice, selection or use of the ST products and services described herein.

No license, express or implied, by estoppel or otherwise, to any intellectual property rights is granted under this document. If any part of this document refers to any third party products or services it shall not be deemed a license grant by ST for the use of such third party products or services, or any intellectual property contained therein or considered as a warranty covering the use in any manner whatsoever of such third party products or services or any intellectual property contained therein.

UNLESS OTHERWISE SET FORTH IN ST'S TERMS AND CONDITIONS OF SALE ST DISCLAIMS ANY EXPRESS OR IMPLIED WARRANTY WITH RESPECT TO THE USE AND/OR SALE OF ST PRODUCTS INCLUDING WITHOUT LIMITATION IMPLIED WARRANTIES OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE (AND THEIR EQUIVALENTS UNDER THE LAWS OF ANY JURISDICTION), OR INFRINGEMENT OF ANY PATENT, COPYRIGHT OR OTHER INTELLECTUAL PROPERTY RIGHT.

UNLESS EXPRESSLY APPROVED IN WRITING BY AN AUTHORIZED ST REPRESENTATIVE, ST PRODUCTS ARE NOT RECOMMENDED, AUTHORIZED OR WARRANTED FOR USE IN MILITARY, AIR CRAFT, SPACE, LIFE SAVING, OR LIFE SUSTAINING APPLICATIONS, NOR IN PRODUCTS OR SYSTEMS WHERE FAILURE OR MALFUNCTION MAY RESULT IN PERSONAL INJURY, DEATH, OR SEVERE PROPERTY OR ENVIRONMENTAL DAMAGE. ST PRODUCTS WHICH ARE NOT SPECIFIED AS "AUTOMOTIVE GRADE" MAY ONLY BE USED IN AUTOMOTIVE APPLICATIONS AT USER'S OWN RISK.

Resale of ST products with provisions different from the statements and/or technical features set forth in this document shall immediately void any warranty granted by ST for the ST product or service described herein and shall not create or extend in any manner whatsoever, any liability of ST.
