## Soldering Process:

Cleaning:

- Only tape sealed types apply to wash process
- Do not remove the tape before wash process.
- After soldering process, do not continue the wash process immediately. Please wait for at least 3 minutes.
- Apply alcoholic solvents as cleaning agent do not use other solvents or water.
- Ultrasonic cleaning is not recommended.
- The cleaning process per stage is maximum. 1 minute and the whole cleaning time are not to exceed 3 minutes.

Any flux enters the switch may fall the conductivity.

Reflow Temperature Profile: (reference)
