

Through Hole Power Inductors

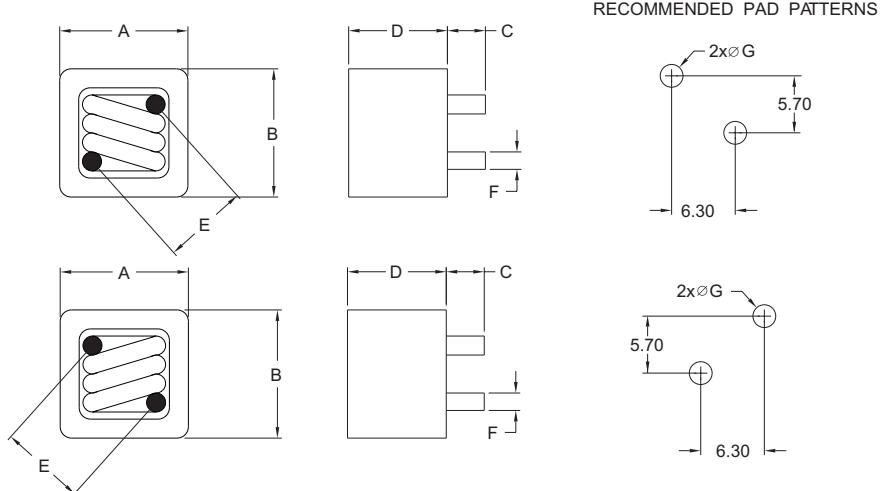

THAR1285, 1290 & 1211C Type

Features

- RoHS compliant.
- High current (Isat up to 40A) though hole type.
- Magnetically shielded, suitable for hight density mounting.
- High energy storage and low DCR.
- Ideal for power source circuits, DC-DC converter, DC-AC inverters inductor application.
- In addition to the standard versions shown here, customized inductors are available to meet your exact requirements.

1. Lo is the initial inductance and the tolerance is $\pm 20\%$.
2. Isat is the DC current which cause the inductance drop approximately 20% of its nominal inductance without current.
3. Irms is the DC current which cause the surface temperature of the part increase less than 45°C.
4. Operating temperature : -40°C to 125°C (including self-temperature rise).
