

## Relative Pressure Sensor System

### HRP01

#### HRP01 Product Summary

The HRP01 series is a relative pressure sensor module, The design of pressure sensor in the module is based on mems and IC technology. HopeRF company's product is cheap but with good quality. The technology assures that the PN junction reverse current is less than  $10^{-10}$  A , So that the module is high sensitive, good linear and sensitivity, low tcs and super reliable.

#### Applications

- \_ pulse measuring
- \_ high speed analyzing for small amount material
- \_ breath monitoring system
- \_ breath machine
- \_ pressure switch
- \_ environment control
- \_ liquid level control
- \_ air flow
- \_ filtering monitor
- \_ HAV fan control
- \_ all kinds of leakage detection systems
