## Model C106

### PRODUCT FEATURES

The Type C106 Silicon Controlled Rectifier (SCR) has the following outstanding features:

#### LOW COST

**SENSITIVE** Operates directly from low signal sensors such as thermistors, photo-conductive cells, etc.

**VERSATILE** Designed for a variety of mount-down methods—printed circuit, plug-in socket, screws, or point-to-point soldering

**RUGGED, COMPACT** Uses a solid plastic encapsulant in rectangular shape for high density packaging
