

DIN RAIL Module PHM2-Vx for DC/DC Converter up to 2"x 2"

*Case material is for the top cover (Lexan), lower case (Noryl) . Class UL94V0
Top cover includes ventilating louvers for cooling by air convection*

The PHM2-Vx module can hold dc/dc converters with dimensions of 40x50mm (20W ...30W)
or in 50x50mm (2"x2" / with 30 ...50Watts). This unit is mountable on the DIN RAIL System TS35.

- Version V1 the basic configuration includes the lower case with a DIN RAIL clip and the basic PCB with screwing connectors and soldered in DC/DC converter.
- Version V2 configuration includes an additional top cover with label. All other features are like version V1.
- Version V3 includes an automatic reversible polymer fuse, LED for visual operation control, backup capacitors, suppressing diodes and polarity safety.
- Optional PEAK offers also output voltage trimming and remote on/off function, if the used DC/DC converter supports these features. Also customer oriented combinations are possible.

Specification can be changed without notice.
