## durAstatic wash bottle

- LDPE bottle and swan-neck spout made with  and durAstatic technology
- Permanently static dissipative suitable for use in an EPA
- RG:  $< 5 \times 10^{10} \Omega$ ,  $T_{1000} < 6 \text{ sec}$
- No volatile additives to rub off or be dissolved by contents
- Simply squeeze bottle to dispense contents
- Many uses: e.g. at soldering stations to dispense water for wetting sponges
- Sold in packs of 5 bottles

### Physical properties

SIZE	CODE	UNIT
250ml	KE325	pack of 5
500ml	KE350	pack of 5

Colour: Yellow.

### Electrical properties

Surface resistance	$10^8 < R_s < 8 \times 10^{10}$ Ohm
Volume resistance	$R_v < 5 \times 10^{10}$ Ohm at 100V
Charge decay	<4 sec from 1000V to 100V

Electrical properties taken at 20°C, 50% rH. Broadly speaking the properties will not vary with humidity or tim
