

**Materials:**

|   |  |
|---|--|
| 1 | POM, black                               |
| 2 | brass, nickel-plated, 2µm min.           |
| 3 | brass, nickel-plated, 2µm min.           |
| 4 | phosphor-bronze, nickel-plated, 2µm min. |
| 5 | phosphor-bronze, gold-plated, 1µm min.   |
| 6 | phosphor-bronze, nickel-plated, 2µm min. |
| 7 | phosphor-bronze, nickel-plated, 2µm min. |

**Notes:**

RoHS compliant

 applicable unless otherwise indicated in specification or on drawings

Initial

Date

**Materials:**

|              |                |
|--------------|----------------|
| insulator    | POM, black     |
| metal head   | brass C3604    |
| terminals    | P-bronze C5191 |
| outer sleeve | brass C2700    |

**Electrical:**

|                       |  |
|-----------------------|--|
| dielectric strength   | 500 Vac, 1 minute                      |
| insulation resistance | 500 Vdc / 100 MOhms                    |
| contact resistance    | 50 mOhms or less between plug and jack |

**Mechanical:**

|                  |   |
|------------------|---|
| insertion force  | 0.4 ~ 4 kgf when mating with a standard plug  |
| extraction force | 0.4 ~ 4 kgf when mating with a standard plug  |
| durability       | meets specifications below after 5000 cycles; insertion force: 0.3~4 kgf; withdrawal force: 0.3~4 kgf; contact resistance: 60 mOhms or less between plug and jack |

**Environmental test:**

damp test

|                 |  |
|-----------------|--|
| test conditions | 40°C, relative humidity 90-100%, 96 hours then cool to ambient, 2 hours at ambient conditions                              |
| requirements    | dielectric strength: 500 Vac at 1 minute; insulation resistance: 500 Vdc/50 MOhms min.; contact resistance: 100 mOhms max. |

dry test

|                 |  |
|-----------------|--|
| test conditions | 70°C, relative humidity 70-85%, 96 hours then cool to ambient, 2 hours at ambient conditions |
| requirements    | no deformation; contact resistance: 100 mOhms max.   |

salt spray test

|                 |   |
|-----------------|---|
| test conditions | 5% NaCl salt mist. 35 ± 2°C, relative humidity 90-95%, 24 hours; parts washed after testing |
| requirements    | electrical and mechanical specifications; contact resistance: 100 mOhms max.                |

**Environmental test:**

damp test

|             |                |
|-------------|----------------|
| temperature | -25°C to +70°C |
| humidity    | 85% or less    |

**Revision notes:**

| Rev | Date              | Description     |
|-----|-------------------|-----------------|
| A   | September 4, 2009 | initial release |
| A1  | May 7, 2012       | updated drawing |
|     |                   |                 |

**Specification Approval**

Spec sign-off verifies that you have reviewed the entire specification, tested a sample of the product, and confirm that it meets your requirements. This specification reflects the part as it will be ordered. Orders will not be processed until the specification pages have been initialed and the approval page has been signed. This specification is confidential and is not to be transmitted without prior approval from Tensility.
