Product Change Notice: PCN1040A

Laser Brand Transition Amendment To Correct and Clarify PCN1040 PCN1040A September 4, 2015

PCN Date: September 4, 2015

Product Change Notification (PCN)

PCN1040A Laser Brand Transition Amendment to Correct and Clarify PCN1040 September 4, 2015

This PCN is an amendment to provide a detailed part number listing of the devices affected by PCN1040 and further clarify the original notification.

Detailed Description of Change

IXYS Integrated Circuits Division has been converting from device <u>ink</u> branding to <u>laser</u> marking as stated in "PCN1040 Laser Branding Transition" dated March 30,2015. That change <u>only affects the</u> visual appearance (or "form") of the devices listed in Product Change Notification PCN1040.

The manufacturing process change took effect on June 28, 2015 which coincides with date code 1527, (27th week of 2015), a visible identifier on the product.

For each product affected by that change, its complete set of unique part numbers is provided in the listing shown on the following pages of this change notice.

Due to existing inventory, some shipments may contain ink-branded devices for a period of time. Some shipments may contain both ink-branded and laser-marked parts. At no time will ink-branded and laser-marked parts be combined into the lowest-level shipping container (i.e. tube or tape and reel). Ink-branded devices may continue to be shipped for a period of two years following the effective date or until inventory of ink-branded parts subject to the change is depleted.

The PCN number assigned to this notification is **PCN1040A** and should be referenced in any correspondence related to the change.

Please see the complete part number list of affected devices below.

Reason for Change

The adjustment in package branding will improve efficiency and automation. No other characteristics of the part will change.

Anticipated Impact on Quality and Reliability

The change will have no affect on product quality or reliability.

Contact Information

For any questions related to the PCN notice, please contact IXYS Integrated Circuits Division's Quality Assurance Department as indicated below:

PCN1040A Laser Brand Transition Amendment to Correct and Clarify PCN1040 September 4, 2015

To Our Valued Customers:

The following is to update IXYS Integrated Circuits Division customers of the laser marking change. This notification is part of our effort and commitment to continuous improvement of our processes and products. IXYS Integrated Circuits Division's quality system requires customer notification under the circumstances outlined below.

IXYS Integrated Circuits Division's notification policy states:

IXYS Integrated Circuits Division is mindful that changes to process or product could have an adverse impact on our customers.

Therefore we verify, through our qualification methodology, that a change does not negatively affect product quality or reliability. We also verify that it does not impact form, fit, or function.

Changes to function are notified to the customer if the change could adversely affect the customer but not if the change is to enhance product performance beyond the current specification, for example, higher isolation voltage capability for Solid State Relays.

In cases where a planned change would impact form, fit, or would adversely affect function, quality or reliability, we notify the customer 90 days in advance.

We also notify our customers of planned product obsolescence.

The following definitions apply:

Form: the visual appearance including color, marking, and surface finish

Fit: the external dimensions and associated tolerances

Function: the electrical, mechanical, thermal, quality and reliability performance

characteristics

IXYS Integrated Circuits Division notifies customers of the changes using a Product Change Notification (PCN). Attached are the details of the pending product change.

Sincerely,

Steven Andrezyk Director of Marketing IXYS Integrated Circuits Division 78 Cherry Hill Dr. Beverly MA, 01915 Phone: 978-524-6700
